

WHAT YOUR COLLEAGUES ARE SAYING ABOUT PRECISO

"A big part of my decision to go with the Preciso system was the support and continuing education Jensen Dental offers. I was very confident that I had good technical support just a phone call away."

— *Raymond Murray, RG*
Murray Dental Laboratory, Durham, NC

your lab, visit PrecisoDental.com

"We now have an esthetic and basically bulletproof posterior offering that can be used in what was previously an unsuitable indication for all-porcelain crowns. The esthetics and fit are predictable and the material doesn't need demanding preps that previously made doctors resistant to all-ceramics. Digital is really hitting its stride right now and I'm more excited about CAD/CAM as well as in-house production than I ever thought I could be. This industry is rapidly evolving and I feel we're ready to make the most of it."

— *Eric Sjodin, Vice President*
Lakeland Dental Technologies, Grand Rapids, MN
